Please as a matter of fairness vote no to changes on the 1996 telco act! Could you also look into the absurdity of it costing me more to call upper westchester county, than it would be for me to call California! the instate rates must go down & you should have hearings into that matter & take care of that matter right away! Thank you, for your time! Mr Leonard P Daniels 37 crisfield street Yonkers, NY 10710 telephone# 9149611320

Chairman Powell, the 1996 Telecommunications Act, among other things opened competition in long distance telephone communications by allowing the reselling of excess capacity by the big carriers.

It is my understanding that your commission is considering changes to the Act which may cost me. I would be interested in the rationale, and why we need to, in essence, raise rates.

I now enjoy 4 9¢ (four point nine cents) a minute long distance. Why change that?

Sincerely,

W I Lewis, Jr

Please, vote "NO" on the planned changes to the 1996 Telco Act. If you raise those rates and show, once again, you wanted to nab us then stab us, it's back to phone cards for me - I can't take any more of this financial abuse. Please, vote no - I KNOW I'm not alone in my feelings.

Dear FCC Commissioners

As a rate payer I urge you all to vote No on the planned changes to the 1996 Telco Act. Life is expensive enough as it is, and if a telecommunications company can deliver low rates to its customers, it should not be enjoined from doing so. Thank you.

Sincerely,
James Parker
